PROJECTS

Web Developer — AnuSri Interiors   **Jan 2025**
- Designed and developed a fully responsive and modern website using HTML, CSS, and JavaScript for an interior design business. The site includes dynamic service sections, contact form functionality, and mobile-friendly design to enhance user experience and brand presence.

SaveWise – Expense Management System (Team Size: 4 — Role: Frontend Developer)
- Developed the user interface for a responsive web application that helps users track and manage their daily expenses efficiently. Collaborated with a 4-member team, focusing on designing intuitive layouts using HTML, CSS, and JavaScript to ensure smooth user interaction. Implemented form validations, dashboard visuals, and seamless navigation to enhance the user experience.

Tata Group Data Analytics Job Simulation on Forage   **June 2025**
- Completed a project-based simulation with Tata iQ's Financial Services team. Performed data quality analysis, identified key risk factors, and proposed a no-code predictive model for customer delinquency. Designed an AI-powered collections strategy integrating agentic AI, automation, and ethical compliance for scalable impact.
